

Supporting Australian Made

Locally owned businesses build strong communities by sustaining vibrant town centers, linking neighbours in a web of economic and social relationships, and contributing to local causes. Local ownership ensures that important decisions are made locally by people who live in the community and who will feel the impacts of those decisions.

Chair Solutions is a business which fuels Australia's economic innovation and prosperity. They produce the best in class seating to suit the needs of the modern Australian and New Zealand workplace, for over 30 years.

While most of us are being told to stay home and to use social distancing, health care workers are front and centre, taking care of us affected by the COVID 19 virus.

This month Chair solutions have been proud to complete 3000 chairs for Brisbane hospitals to support our frontline Nurses, Doctors and hospital staff.

Pacific Urethanes are proud to be working along side Chair Solutions in the Australian manufacturing community by providing Chair Solutions with a custom formulated flexible foam system for the production of these office chairs.

Pacific Urethanes and Chair Solutions are proudly Australian which means we can ensure the quality of our products; help support our economy and contribute to local jobs.
