

Polyurethane Foams and Sealants from our trusted partners at DAP

Pacific Urethanes product range includes the Touch 'n Seal range of Polyurethane Foams and Sealants from our trusted partner DAP.

DAP is a leading manufacturer and supplier of caulks, sealants, adhesives and repair products. DAP has a history of first-to-market innovations with trusted, quality, reliable and long-lasting products for professional whether you are a professional or a DIY user. DAP Touch 'n Seal offers products for a variety of specialty markets. From slow-rise polyurethane spray foam for the marine industry to roof tile adhesive for the roofing industry.

Touch 'n Seal's one-component polyurethane foam sealants are the most effective way to seal gaps and voids and prevent energy loss from air infiltration. Touch 'n Seal Foam Kits are two-component low-pressure spray-applied or pour-in-place polyurethane foam systems for insulating residential, commercial, industrial and agricultural structures. Touch 'n Seal also manufactures unique products designed specifically for the mining industry.

DAP specialised foam sealants are designed to be used for insulating residential, commercial, industrial, or agricultural structures, duct sealing and even sound absorption.
