Scope of Pacific Urethanes Environmental Management System

All business activities carried out by the organisation including design, development, manufacture, supply, waste and end product disposal, laboratory testing and office administration.

Products include all types of polyurethane and polyurea systems; specifically cryogenic foams for LNG, rigid foams, flexible foams, cold cure elastomers, sprayable membranes, adhesives, binders and coatings.

Environmental Policy Statement

Pacific Urethanes commits to ensuring that its products and its business activities comply with all relevant compliance requirements with respect to environmental preservation and prevention of pollution within Australia.

Pacific Urethanes commits to continuously improve its products and business activities in accordance with the requirements of ISO14001 to prevent or minimise pollution and work towards a more sustainable use of natural resources as far as business conditions allow.

Pacific Urethanes is cognisant that the highest impact on the environment occurs during the downstream lifecycle of our products. Where feasible we will commit to educating and influencing all stakeholders to minimize these environmental impacts.
